Follow the instructions for installing Native Access on your computer.

🔟 Native Instruments Native Access - InstallAware Wizard 🛛 – 🗌 🛛 👋					
	Completing the Native Instruments Native Access Setup				
	The Native Instruments Native Access Setup is now ready to configure Native Access on this computer.				
	- Click Next to begin configuration - Click Back to change settings				
	< <u>B</u> ack <u>N</u> ext > Cancel				

Once the Install is completed, you can launch Native Access. Click the **Start Update** button to begin.

Native Access will ask you to Log In using your Native Instruments' email address and password.

KOMPLETE START INSTALL

Once Native Access opens, click on the **Not Installed** tab to see all the Komplete Start downloads that are available. Click the **Install All** button to begin installation.

A window will pop up showing where the files will be downloaded to. It is recommended To allow the files to download in the default location. Click the **Confirm** button to continue.

The downloading and installation of all these files can take a while, but you will be able to see the progress.

Once all the downloads and installations have been completed, you can close out of Native Access. Now launch the **Komplete Kontrol** program. It will automatically scan your hard drive and organize the VSTs.

INSTALL LIBRARIES

Now you can close out of Komplete Kontrol and you are ready to import the Komplete Start Libraries. Launch the TriplePlay software and click on the **Blue Folder Icon**.
